Is there any other feedback that you would like to share?

- No thank you. It feels sad to be teaching children so young about these things but as you say we are in a fast changing world and we would rather they learnt the correct information from yourselves.
- Thank you for sharing the information and content so that we can be aware of potential questions at home and be able to support appropriately.
- Thank you, clearly a lot of thought and effort to help our children understand and relate to such a sensitive subject (& us parents/carers).
- This curriculum looks very positive and I'm pleased you are consulting parents. I would only stress that there be more specific focus on the issues I outlined above (LGBTQ relationships, discrimination of all kinds, gender roles).
- Be careful to teach the proper vocabulary for all body parts to avoid the unnecessary body embarrassment we all grew up with, as well as for safeguarding purposes. This stuff matters, and we could be the first generation of parents and teachers to finally get it right 😊
